

# EFFECTIVELY PARTNERING WITH RURAL COMMUNITIES FOR PUBLIC HEALTH COMMUNICATIONS | LESSON 4: DISSEMINATING MESSAGING

## WD4998

**PROGRAM DESCRIPTION:** This enduring activity is designed to address the gap in knowledge and skill/strategy by providing learners with instruction, resources, and activities supporting their ability to effectively build relationships with rural communities to support public health communications.

### OBJECTIVES:

At the conclusion of the activity, the participant will be able to:

1. Identify communication dissemination strategies that can support engaging rural communities.
2. Identify strategies for collaboratively disseminating public health messages with rural communities, building trust between all partners.
3. Recognize ways public health communication can support informed decision-making to improve health outcomes in rural communities.

### FACULTY/ CREDENTIALS:

Esmeralda Salas, BS, Research Associate III, Population Health Innovation Lab

### CE ORIGATION DATE: CE EXPIRATION DATE:

September 15, 2025  
September 15, 2027

### URL

<https://youtu.be/lsU7gO625A0?si=6Np2AQTYTCGGXzdR>

### INTENDED AUDIENCE:

The intended audience includes individuals who may not directly work in rural settings but are involved in rural public health and seek to deepen their understanding of collaborating with rural communities to enhance public health communication strategies.

### PREREQUISITES:

This lesson builds on content introduced in Activity #WD4995, Activity #WD4996, and Activity #WD4997. Learners are strongly encouraged to complete these activities prior to engaging with the material in this lesson.

**FORMAT:**

This activity is Web on Demand.
