CalAIM Meeting: Marin, Napa, & Sonoma Ecosystems of Care

September 2, 2026 | 10 am – 2:30 pm

Land Acknowledgment (Sonoma)

The Population Health Innovation Lab team respectfully acknowledges that we are currently standing on the unceded land of the Graton Rancheria, Wappo, Southern Pomo, Alone, and Coastal Miwok people.

We acknowledge the land and country we are on today as the traditional and treaty territory of the Native American, Alaska Native, and Tribal nations who have lived here and cared for the Land since time immemorial. We further acknowledge the role Native American, Alaska Native, and Tribal nations have today in taking care of these lands, as well as the sacrifices they have endured to survive to this day.

Commitments to Community Inclusivity

Be Present, Brave, and Curious

- Encourage different opinions and respectful disagreement
- Embrace conflict which can deepen our understanding
- Acknowledge the risk speakers take, and value the privilege to learn from one another
- Make use of opportunities to connect person-to-person

Create An Inclusive Space

- Invite the unheard voices
- Take responsibility for our own voices (make space)
- Resist the temptation to only witness the dialogue (take space)

Invite Anti-Racist Dialogue

- Be aware we all have a bias that may impact action; biases are learned and can be unlearned
- Address racially biased systems and norms
- Recognize the vast and varied lived experiences participants have with racism
- Be intentional about power dynamics and how you exercise your privilege
- Avoid defensive responses when people speak from lived experiences with racism

Be Accountable

- Foster awareness of unrepresented community members not “in the room”
- Respect each other’s time - participate fully and prepare for each activity
- Commit to actions that move items beyond discussion
- Practice patience and persistence – we cannot solve everything in a single conversation and will revisit topics that require additional discussion

ECM & COMMUNITY SUPPORTS

What is working

WHAT IS WORKING

- ✓ **Trusted Community Engagement** – IWA builds strong relationships and connects with participants who often face barriers to traditional services.
- ✓ **Whole-Person & Culturally Responsive Care** – IWA addresses housing, behavioral health, recovery, and other social needs through culturally responsive support.
- ✓ **Hands-On Care Coordination** – IWA helps participants navigate services, follow up with providers, and stay engaged in their goals.

ECM & COMMUNITY SUPPORTS

What is not working

WHAT IS NOT WORKING

- ✓ **Administrative Burden** – Excessive documentation, billing, reporting, and authorization requirements take time away from direct participant care.
- ✓ **Communication & Referral Delays** – Inconsistent communication, referrals, authorizations, and data sharing can delay needed services.
- ✓ **Need for Stronger CBO Partnership** – Community-based organizations need greater input, consistent expectations, faster reimbursement, and simpler processes to effectively deliver CalAIM services.

Kaiser Permanente Medi-Cal's *Your Health Your Care* **Influencer Campaign**

Enhanced Care Management Influencer Campaign

In 2025, Kaiser Permanente Medi-Cal funded the Public Goods Project (our Communications Vendor) to launch an Enhanced Care Management (ECM) Influencer Pilot:

 **The spark** | The pilot campaign was rooted in a simple and powerful idea: people listen to people they trust

 **The objective** | To leverage a network of local trusted messengers to increase awareness and enrollment for Enhanced Care Management (ECM) across two priority populations: Birth Equity statewide and Foster Youth within San Bernardino and Sacramento counties.

 **The trusted messengers** | We partnered with **social media influencers** and **community-based organizations (CBOs)** who reach and resonate with priority populations through their own communication channels.

 **Impact** | There was over 500k+ in potential reach of messaging to trusted messenger audiences, 50k+ views across all posts combined, and +2k engagements (likes, shares, and comments).

We wanted this campaign to resonate with all Medi-Cal members, regardless of health plan.

All social media posts and collateral were health plan agnostic.

This content was not KP Branded.

2025 Influencer Campaign for Enhanced Care Management Services

In 2025, Kaiser Permanente Medi-Cal funded the Public Goods Project (our Communications Vendor) to launch an Enhanced Care Management (ECM) Influencer Pilot. **We saw an overwhelmingly positive response...**

General appreciation for services

"I love how this program offers comprehensive care, it's exactly what new moms need to feel supported."

Appreciation for Medi-Cal

*"Medi-Cal sounds like a great insurance plan."
"Medi-Cal is so helpful!"*

General appreciation for post

"That's pretty awesome. Thanks for letting other folks know who have Medi-Cal what they need to do"

Personal Interest in ECM/ CS

"Wait this is sooo cool 🥰 I need to check this out I just found out I am pregnant"

Majority of posts had an engagement rate at or above industry average, indicating audiences were interested in the content.

So What's Next?

Kaiser Permanente Medi-Cal, in partnership with Public Goods Project, is relaunching a 2.0 version of the Influencer Campaign this year!

Since then, we have...

- Evaluated our 1.0 Campaign
- Partnered with **Anthem** 
- Worked on developing a stronger call to action for our campaign
- Redesigned the campaign to facilitate a launch across California

ECM & Community Supports Update

Purpose of Today's Discussion

- Share what is currently known (and not yet known)
- Discuss what's working and areas for improvement
- Review anticipated Medi-Cal changes for Jan 1, 2027
- Share Partnership's vision for the future
- Gather provider feedback and answer questions

We are committed to transparency, collaboration, and minimizing disruption for members and providers.

CalAIM: What We Know & Don't Know

What We Know

- DHCS is refining ECM and Community Supports policies; final guidance is still pending.
- Increased focus on service intensity, documentation, program integrity, and outcomes. DHCS has indicated ECM should be more intensive, with expectations generally moving toward 3+ member contacts per month.
- Community Supports will continue in 2027, though service definitions and eligibility criteria may change.
- MCPs must submit Community Supports Models of Care to DHCS this fall; however, MCPs need their rates from DHCS to evaluate their service offerings based on waiver requirements for cost effectiveness.
- In May, DHCS submitted their waiver renewal to CMS. CMS has until December to review the request.
- ECM is not going away and is not dependent on waiver renewals. However, providers should prepare for greater accountability, stronger documentation expectations, and a more intensive service model.

CalAIM: What We Know & Don't Know

What We Don't Know Yet

- Final ECM & CS policy requirements, eligibility criteria, and implementation timelines.
- Final ECM and CS rates to Managed Care Plans
- Our final Community Supports services election beginning 1/1/2027 again, dependent on DHCS rates and plan fiscal analysis
- Any new documentation or administrative requirements to demonstrate the stronger expectations for demonstrating member engagement, outcomes, and value for ECM and CS services

Current State of ECM and Community Supports

What's working

- Strong provider commitment and partnerships
- Effective connections to community resources
- Meaningful impact on member outcomes

What's most utilized?

- Enhanced Care Management (ECM) – 23,674 members enrolled as of July 2026
- Community Supports – 14,201 members enrolled as of July 2026
 - Housing Transition & Navigation Services
 - Housing Tenancy & Sustaining Services
 - Medically Tailored Meals/Medically Supportive Foods

Current Challenges

- Poor documentation or lack of documentation of activities
- Providers struggling with basic workflow and referral process challenges
- Lack of intensive services being delivered – or delivered and not documented

Medi-Cal Changes Jan 1, 2027

- **Unsatisfactory Immigration Status (UIS) transition**
 - 2 Million members statewide; ~84,000 Partnership Members
 - Move from Medi-Cal Managed Care to Medi-Cal FFS.
 - No longer eligible for ECM or CS
- **Work & Community Engagement Requirements**
 - H.R. 1
 - Adults in the ACA Medi-Cal expansion group must work, attend school/job training, or volunteer for at least 80 hours per month unless they qualify for an exemption.
 - 3.5 Million Medi-Cal enrollees subject to Work/Community Engagement Requirements
- **Six-Month Medi-Cal Renewals**
 - H.R. 1
 - Requires the New Adult Group members to renew Medi-Cal every six months instead of once a year.
- **Retroactive Medi-Cal timeframes**
 - H.R. 1
 - Limits retroactive coverage timelines
 - Reduces retroactive coverage from three months to one month for New Adult Group members and two months for all other Medi-Cal members.

CalAIM: Partnership's Vision & The Future

Guiding Principles: Member experience, quality & outcomes, provider partnership, accountability, continuous process improvement.

- As ECM and CS policies and rates shift – Partnership is continuing to evaluate many aspects of the program.
- Partnership will continue to require high-quality services while supporting providers capable of delivering value and outcomes for members.
- The organizations that understand and prepare for Medi-Cal's evolving expectations will be most successful in the next phase of CalAIM.

There will be:

- Changes to ECM rates & structure – timing TBD
- Sunsetting of STPHH effective Jan 1, 2027.
- Continued provider oversight and accountability for ECM and CS model fidelity (ex: reporting, billing, documentation, care plans, etc.)
- Support to our ECM and CS providers through these changes
